measured more than
25%
of the U.S. workforce

Progressive HR leaders use technology differently

More than 5,000 progressive companies in 100 countries use intuitive applications from Infor for talent management, recruitment and onboarding, position management, benefits, optimized scheduling, and payroll. Infor software is used to pay 50 million employees every month.

However, human capital management software should be about more than just administrative tasks. Infor CloudSuite HCM helps you build a better company by identifying and nurturing great talent using science, behavioral attribute data, and predictive analytics.

Progressive HR leaders are innovating with Infor software to build the next generation of great companies.
